HYPERBARIC CHAMBER FOR SALE

The Twin lock 1800 series Hyperbaric chamber with Walk-in entry into the Main Lock features some of the latest technology.

The system is in excellent condition.

Has Australian compliance.

Will come with current pressure vessel certifications.

The chamber can currently accommodate up to 6 people in the main compartment (lock).

Comprising of single bench seat and 3 bucket seats. The bucket seats can be removed and replaced with another bench seat. (Comes with the system)

The Operators control console is fully equipped with gas monitoring, temperature and humidity monitoring, communications & CCTV amongst many other controls for safe operation of the chamber.

The chamber has a maximum depth of 50 meters and can be used for a wide range of specialised applications, research and training and therapy.

Included:

- 4 x sets of Oxygen BIBS
- Oxygen supply regulator
- Internal lighting
- CO2 Scrubber
- Service lock
- Walk in Entry into main lock
- Entry lock ready for NATO flange to be fitted
- Internal Caisson Gauge in Main lock

- ELGI LP Enclosed silenced compressor with dryer
- 4 x LP vertical air receivers
- MCH36 Coltri HP compressor 600 l/min
- 10 x 300 Bar 50 Litre HP storage cylinders & fittings

The chamber itself will fit inside a 20 ft shipping container. (Not included in price)

The control panel and compressors with storage cylinders would need a separate 20 ft container. (Not included in price)

Optional H.I. Fraser gas system and chamber package available that was offered to Australian Navy.
